## STAFF REPORT

**Meeting:** Regular Session  
**Date:** June 15, 2021  
**To:** Board of Directors  
**Prepared by:** Raychel Jackson, finance manager  
**Approved by:** John Muniz, Chairman

**Re:** Approve Resolution 2021-07 Proposition 4 – Government  
Spending Limit Calculation for FY 2021-2022

---

## RECOMMENDATION

Action Item  Non-Action Item

Approve Proposed Government Spending limit calculation for fiscal year 2021-2022 in the amount of \$7,555,502.00.

## BACKGROUND

In 1979, Proposition 4 (Gann Limit) was approved adding Article XIII B to the California Constitution. This was designed to constrain government expenditures by placing an annual limit on jurisdictions' revenue and appropriation growth. This allowance growth is increased annually by an inflation factor compromised of the changes in the population and cost of living of the unincorporated areas combined with the change in the California per capita personal income. Article XIII B applies to the State, all cities, counties, and special districts. Each governmental entity has its own appropriations limit. The Gann Limit is placed on appropriations growth from the prior year base.

## DISCUSSION

The State of California Department of Finance is charged with providing the data necessary for local jurisdictions to establish their appropriations limit. According to the information provided, for purposes of FY2021-2022 calculation, the population for the unincorporated areas increased. California per capita personal income (Price Factor) increased by 5.73%. These figures were used in the formula to compute the limit. The calculated maximum Gann limit applicable to the FY2021-2022 appropriations of proceeds of tax for the Tracy Rural County Fire Protection District is \$7,555,502.00. See attached Calculation of Budget Limit for detailed calculation.

## Resolution No. 2021-07

### ESTABLISHING THE APPROPRIATIONS LIMIT FOR FISCAL YEAR 2021-2022 PURSUANT TO ARTICLE XIII B OF THE CALIFORNIA STATE CONSTITUTION

**WHEREAS**, in November 1979, the California electorate did adopt Proposition 4, which added Article XIII B of the California Constitution;

**WHEREAS**, the provisions of the Article require the District to establish a maximum spending limitation for each fiscal year;

**WHEREAS**, the Board of Directors approves to set the Gann Appropriations Limit for the Fiscal Year 2021/2022 to \$7,555,502.00;

**NOW THEREFORE, BE IT RESOLVED**, by the Board of Directors of the Tracy Rural County Fire Protection District that:

The District does hereby approve to set the Gann Appropriations Limit for the Fiscal Year 2021/2022 in the amount of \$7,555,502.00.

Motion passed.

Passed, approved, and adopted this 15th day of June, 2021.

## STAFF REPORT

**Meeting:** Regular Meeting  
**Date:** June 15, 2021  
**To:** Board of Directors  
**From:** Raychel Jackson, Finance Director  
**Re:** Preliminary Budget for Fiscal Year 2021-2022

---

### Recommendation

Action Item  Non-Action Item

It is recommended that the Tracy Rural County Fire Protection District Board of Directors receive the proposed preliminary budget for FY2021-22.

### Executive Summary

The Fire Protection District Law of 1987 provides the Board shall adopt a preliminary budget before June 30 and adopt a final budget before or on October 1 of each year.

### Discussion

Staff has prepared the FY2021/22 preliminary budget based on current available information. The budget is presented as a preliminary budget so the Directors can provide input which will be incorporated into the final budget. The budget provides for the financial planning and evaluation of all funds. Fund accounts include: 1) General; 2) Building Maintenance and Apparatus Funds within the Capital Outlay; 3) Fire Facilities; 4) Retirement Buyout; and 5) Reserve.

### Fiscal Impact

None.

## PROP 8 POTENTIAL RECAPTURE HISTORY

Single Family Residential Parcels - Compiled Using Parcels Supplied by County

At its peak, Prop 8 reviews reduced values on 50+% of all SFR homes in the District.

The outstanding balance of properties reduced during the Great Recession left to be restored is \$61,451,506. If restored in a single year this would be the equivalent of 1% to be added to the District's value. We don't anticipate this will be restored fully in 2021-22.

Prop 8 History

The report identifies parcels that were granted a value reduction and possess value recapture potential per Proposition 8. The reductions were based on market conditions at the time of assessor review. This calculation is derived from historical transfers of ownership, Assessor applied Proposition 8 reductions and trends in the marketplace relative to median and average home sales and is an estimate of the impact of current adjustments to the assessment roll as of the 2020-21 lien date.

The Inflation Adjusted Peak Value is defined as a parcel's highest value after its most recent sale. If a parcel is assessed for a lower value after its most recent sale, then the sales price becomes the peak value. Peak values are inflated annually according to Proposition 13. Prop 8 Parcels that have recaptured value include both parcels that have been fully recaptured as well as parcels that have only recaptured a portion of the Inflation Adjusted Peak Values. Proposition 8 potential value recapture is shown in the Potential Recapture Column and assumes no future sales transactions. Sale of Proposition 8 parcels resets base value and removes the parcel from the Proposition 8 list.

In the 8 years of construction activity displayed on this historical report 2019, the year that is reflected on the 2020-21 roll reported almost double the valued added than that in any of the previous 7 years. This may be an aberration or a trend and without information regarding completed new constructions in 2020 it will be difficult to gauge the future impact.

Please remember that the growth in residential construction resulting in homes that are sold in 2020 will be seen in the transfer of ownership (sales transactions) amount in our models and should not be counted as new construction as that will double count the event.

The non-residential new construction growth will be contingent on the continuation of similar development projects (industrial warehouses, hotels, commercial/retail, office buildings and general industrial uses) in future years. These properties often have progress appraisals recorded as the project is under way so the value will be reflected over several tax years.

**Last year's new construction growth was the equivalent to the addition of 5.8% to the overall District increase.**

The average of all years OR the trimmed average would forecast more conservative increases unless better information is quantified and certificates of occupancy have been forwarded to the assessor for review and appraisal for the future years.

- Values are from unappealed secured parcels with no prior lien year transfers, and improvement value increases greater than Assessor CPI

- Trimmed average is the average of years where Total New Construction falls within one standard deviation of the average.

# TRACY RURAL FIRE GENERAL FUND REVENUE ESTIMATE

2021-22 Revenue Estimate based on 2020-21 Values and Estimated Changes

## **NOTES:**

**\*The revenue projection assumes 100% payment of taxes. Delinquency is not considered in the projection; however, rates of between 1% and 2.5% are typical.**

- Estimated Assessor Prop 8 Adjustments: Prop 8 reductions in value are TEMPORARY reductions applied by the assessor that recognize the fact that the current market value of a property has fallen below its trended (Prop 13) assessed value. For 2021-22, properties with prior Prop 8 reductions are not included in the CPI increase. Prop 8 parcel values are projected to be increased, decreased, or projected flat depending on median sale price changes until they are sold and reset per Prop 13.
- Base Year Values Entry: With the dissolution of redevelopment, base year values are unlikely to change and are budgeted flat.
- Secured personal property and unsecured values are projected at 98.0% of 2020-21 levels. Unsecured escaped assessments may be included in the unsecured value. The value of escaped assessments is generally inconsistent and varies from year to year.
- Completed new construction entry: if completed new construction has resulted in a sale of the property it is likely that the new value will appear in the value increase due to transfers of ownership entry and therefore should not be also included in the completed new construction value. Enter the value of new construction completed between Nov. 2019 and Oct. 2020.
- Supplemental and delinquent revenue allocations are pooled countywide and are erratic. They should be budgeted conservatively using historical averages over a minimum of 3 years.
- General Fund Revenue Estimate does not include any ad valorem voter approved debt service revenue.
- Pass through and residual revenues from former redevelopment agencies are not included in this estimate.
- SB 2557 Administration Fees are not deducted from the general fund projections.

**NOTES:**

- **The revenue projection assumes 100% payment of taxes. Delinquency is not considered in the projection; however, rates of between 1% and 2.5% are typical.**
- Estimated Assessor Prop 8 Adjustments: Prop 8 reductions in value are TEMPORARY reductions applied by the assessor that recognize the fact that the current market value of a property has fallen below its trended (Prop 13) assessed value. For 2021-22 and later, properties with prior Prop 8 reductions are not included in the CPI increase, they are projected flat until either the Assessor begins to recapture value as the economy improves and median sale prices begin to increase, they are further reduced, or they sell and are reset per Prop 13.
- CPI of Non Prop 8 Parcels is calculated at the following rates: 2021-22 @ 1.036%; 2022-23 @ 1.500%; 2023-24 @ 2.000%; 2024-25 @ 2.000%; 2025-26 @ 2.000%;
- Prop 8 restoration adjustments are based on projected median SFR home price growth. For this projection the following median year-to-year percentage changes are used: 2022-23: 6.0%; 2023-24: 6.5%; 2024-25: 7.1%; 2025-26: 7.4%
- Transfer of Ownership Assessed Value Change: For 2021-22, the projected increase from known 2020 transfers is used. For years 2022-23 and later a growth rate is applied that is representative of the historical average rate of real property growth due to properties that have transferred ownership. Value growth due to transfers is estimated as the following percentages of prior year real property value: 2022-23 @ 1.6%; 2023-24 @ 1.8%; 2024-25 @ 2.0%; 2025-26 @ 2.1%;
- Base Year Values Entry: With the dissolution of redevelopment, base year values are unlikely to change and are budgeted flat.
- Secured personal property and unsecured values are projected to grow at the following rates 2021-22 @ -2.0%; 2022-23 @ -2.0%; 2023-24 @ 0.0%; 2024-25 @ 0.0%; 2025-26 @ 0.0%; . Unsecured escaped assessments may be included in the unsecured value. The value of escaped assessments is generally inconsistent and varies from year to year.
- Completed new construction entry: This data entry point allows for the inclusion of new construction projects completed annually. Due to processing delays we suggest that a time frame of November - October be selected. (e.g. Nov. 2019 - Oct. 2020 for the 2022-23 FY). If completed new construction has resulted in a sale of the property it is likely that the new value will appear in the value increase due to transfers of ownership entry and therefore should not be also included in the completed new construction value.
- Pooled Revenue Sources include supplemental allocations, redemptions for delinquent payments in Non-Teeter cities, tax payer refunds due to successful appeals, roll corrections and other adjustments applied after the release of the roll. The forecasting of these revenues should be developed based on historical averages over a minimum of 3 years.
- General Fund Revenue Estimate does not include any ad valorem voter approved debt service revenue.

entire proposed fiscal year. This addition also triggers a recalculation of the funding formula:

<u>Member Agency</u>	<u>Previous Staffed Positions</u>	<u>Previous Member Agency Allocation</u>	<u>Proposed Staffed Positions</u>	<u>Proposed Member Agency Allocation</u>
City of Tracy	15	72 %	15	62.5%
Tracy Rural Fire District	6	28 %	9	37.5%
<b>Total</b>	<b>21</b>	<b>100 %</b>	<b>24</b>	<b>100 %</b>

The cost sharing between member agencies is determined in accordance with the *Section 5.4 Responsibility for Maintenance and Operations Costs* of the joint powers agreement. Authority staff is working with the City and Rural District to assure implementation of this funding formula per said Agreement.

Community Risk Reduction (CRR) staff continues to do an excellent job to improve the cost recovery revenue, even with decreased staff due to the previously mentioned reductions. We are anticipating CRR revenue to maintain its current level with less use of consultants to accomplish this goal.

The following table illustrates projected expenditures by cost allocation type:

	<u>FY 20-21</u>	<u>FY 21-22</u>	<u>Variance</u>
Expenses	\$ 21,434,009	\$ 24,659,143	\$ 3,225,134
Less CRR Revenue	\$ (600,676)	\$ (600,676)	\$ 0
<b><u>Total Expenses Net Revenue</u></b>	<b><u>\$ 20,833,333</u></b>	<b><u>\$ 24,058,467</u></b>	<b><u>\$ 3,225,134</u></b>

Per the JPA Agreement, each member agency is required to fund forward 120 days' worth of operating expenses. This funding requirement would result in the City of Tracy funding approximately \$5.13 million per installment, and the Tracy Rural Fire District funding approximately \$2.89 million per installment.
